

Southern School District Title I Schoolwide Program

Southern Elementary school, grades K-6, has developed a Title I Schoolwide Plan through needs assessments, which includes Nebraska state assessment results. Concentration in the area of Reading Comprehension is a focus resulting in student performance improvement in our elementary schoolwide plan.

The plan is developed by the Schoolwide Title I committee and is reviewed annually. The schoolwide plan is reviewed by two outside districts every three years. Any changes in the schoolwide plan are discussed with stakeholders. Attention is given to communicating the school improvement processes, as well as, parent and family engagement activities. The Title I annual meetings are used as one means to review the schoolwide plan with parents, faculty and stakeholders. The Every Student Succeeds Act (ESSA) requires posting of information regarding schoolwide programs on the school website.
